Animal Rights: The Threat to Research

**Where is public opinion
now?
What are the animal rights
groups up to?
What is their end-game?**

**FBR has launched a
national campaign geared
to stabilize falling public
opinion and – ultimately –
reverse that trend.
“Research Saves” has
now reached almost 200
million households.
“Grand Rounds” is your
opportunity to learn about
the campaign and see what
we’re all up against.**
